

## Community Council Meeting MINUTES- March 13, 2018

### Community Council business

Community Council felt like Super Science Night was a success. Looking forward to plans for next year.

### School Plan Review

Reviewed school plan and goals for the upcoming year. Plan will be approved at next meeting, after District Learning First Planning Day. Reviewed budget to make sure it aligned with our School Plan.

### Community Topics

- School Safety Measures, District is making a list and gathering information about what schools are in need of the most updating. (In reply to question about safety of KJH). No official study done, as of yet, that says Kaysville is the least safe school. Windridge will be getting security cameras around school this summer. District will determine when new entrance or vestibule will be put into place. Information based on District Assessment.

\* Super Science Night Feedback: Super Science Night was a HUGE success! Thanks to JESSIKA Christensen for all of her hard work. Families enjoyed more classrooms utilized so it felt less crowded, the make and take projects, the number of activities families could choose from. Ideas for next year...bags to put all the make and take projects in, a map or at least posters stating what classrooms are being used and what activities are happening in each room.

- STEM Garden/Committee –Committee is working well and working and waiting on District for landscaping design and approval. Going smoothly.

### Other Items Discussed/Introduced

New Faculty for next year: Mrs. Gurr leaving, Mrs. Arrington will be taking over Morning Kindergarten. Another teacher will be hired for a 4<sup>th</sup> session of Kindergarten. Mrs. Denson will teach 1<sup>st</sup> grade and Mrs. Payne will move to 3<sup>rd</sup> grade. There will no longer be a 6<sup>th</sup> grade

funnel. Still looking to fill a 3<sup>rd</sup> grade job share and a computer specialist.

Next Meeting Scheduled: April 10 @ 4:00 pm
